We use Smart Phones for more things. The power is incredible. You can now download a free App from the Red Cross for emergency first aid.

Many common injuries are covered, some with how to videos. Content can be preloaded, so you can easily reference anyplace, any time. When I was growing up our parents had a first aid book that would come out if I got into poison ivy, or needed a burn treated. Now, you can literally get a free fist aid book on your phone, or iPad.

The App is integrated with 91, so can call for emergency assistance anytime. The App is available on this link: <http://www.redcross.org/mobile-apps/first-aid-app>

Be ready for emergencies by taking the Ready Christian Training available free here: <http://bit.ly/tUQEcu>
